

Instructions for Use

Semi-Automatic & AR-15 Bolt Action:

1. Insert cable through ejection port and out the magazine well.
2. Attach the loose end to the combination lock.

Revolver:

1. Insert cable through barrel or cylinder.
2. Remove or slide back plastic cover on the end piece (if applicable).
3. Attach the loose end to the combination lock.

Pump Action Shotgun:

1. Insert cable through ejection port and out the loading port.
2. Attach the loose end to the combination lock.

To Set Combination:

1. All locks are factory set to "000".
Open cable lock by pressing side button.
2. While cable is open, use ball point pen to depress the set pin on the bottom of the lock, and turn dials to desired combination to show on the FRANZEN side of the lock.
3. Release set pin, and check combination to be correct one has been set.
4. Combination is now set and ready for use. The currently set combination must be in place to choose a new combination.

NOTE:

- **ALWAYS PULL ON SECURED CABLE TO TEST CONNECTION**
- **ENSURE CABLE HAS BEEN INSERTED TO INDICATOR LINE**
